

---

Dear Sirs,

I have lived in Hadley Wood for fifteen years, and I am deeply saddened to learn that the Green Belt, between Crescent West and Camlet Way, will be replaced with 160 homes. I have watched my children grow up in this lovely place filled with nature, and it pains me to see that the Green Belt will be gone. Hadley Wood is known for its' nature, for its' not-too-busy streets and empty roads, so do we really want to clutter Hadley Wood with more houses and more people to fill up our neighborhood? As well as this, Hadley Wood is more of a car dependent neighborhood, it has ridiculously poor local public transport links, and there really aren't many leisure centers, GP's, post offices, and local food shops, as well as schooling. So why do you want to invest on homes, rather than improving Hadley Wood's necessities?

I teach my children about learning to look after nature and plant trees, but surely, after the talk of Climate Change, and taking action about it, why are you taking nature away? Don't we all want the next generation to live in happiness and content with nature?

So I urge you, to consider what I have written, and try to keep the Green Belt.

Thank you for your time,
