
Enfield Draft Local Plan Response – Regulation 18 Consultation Response

To whom it may concern at Enfield Council

This is my postal address but I pay my rates to the London Borough of Enfield.

I am very concerned about the lack of detail of the infrastructure (roads, water and sewage supply) for the proposed developments especially in relation to the Vicarage Farm development. There is currently not a year goes by without the water Mains in Enfield Road being dug up and repaired. The current supply is not fit for purpose and it cannot cope with the proposed added toll.

The proposed building of dwellings over the borough will severely change the character and identity of the Borough in which I have lived all my life. I do not wish this to change. Enfield used to be advertised as the top London Borough. I note this does not happen now. The proposed buildings of houses on Greenfield sites in the Borough will definitely alter the Borough's character.

I oppose the use of high quality country especially that of the Old Enfield Chase i.e. Vicarage Farm for building homes. If this land is built on it cannot be replaced and will be lost forever to the detriment of the Borough.

Why not use the Brown field sites of which there are several in the Borough for the building of new homes and make them a priority to be built on.
