

Dear Sirs

In response to the Draft Local Plan I would like to register the following comments:

I am concerned that certain proposals would cause loss of important Green Belt land. This is in particular reference to:

- Strategic Policy PL8: Rural Enfield
- Strategic Policy PL9: Crews Hill
- Strategic Policy PL10: Chase Park
- SA45 Hadley Wood and SA54 Land east of Junction 24

Some 6,000 of the planned 30,000 new homes would be in Green Belt and high-quality countryside. Regeneration opportunities within the Lee Valley do not seem to have been addressed.

Some Conservation areas would also be negatively impacted by the Plan such as the building of a 13 storey tower at Palace Gardens and 23 storeys at Edmonton Green. Other Conservation Areas including Southgate would also suffer. A 13 storey building at Palace Gardens would, in particular, spoil the character of the area and impinge on the privacy of current residents (PL1: Enfield Town)

With thanks for your consideration.
