

Hello

Please do build thousands more houses in Enfield. I'm currently looking for a home for my family in London so we (wife and two toddlers, one with autism) can leave our small flat in Greenwich and have our own home with a garden.

I've no doubt that thousands of extra homes will increase choice and competition in both buying and rental markets to the benefit of Enfield residents, current and future.

Crews Hill the station, built in 1910, should finally get the community to use it as the ambitious and forward-thinking Victorians and Edwardians intended.
