

I am writing with great concern of the proposal of new homes. we are over stretched on our roads . hospital , doctors ,schools and Dentist already .if this goes ahead who will benefit from it . As I have 2 children on a good salary but they cannot afford to buy in this area. And if this is true that Enfield council will receive money from the developers then this is totally wrong .And do they live in this area who are happy to let this happen . I totally oppose this. Dont make another of your many mistakes in this area .
