

Hi,

*I strongly object to the proposal to site a Crematorium in the Wetlands*

*This proposal will:*

- *Remove a vital community space that has been so beneficial for the mental well-being of the local community during lock down*
- *Impact this Site of Special Scientific Interest*
- *Reduce the effectiveness of the flood alleviation*
- *Impact local schools and residential areas*
- *Affect the environment and local traffic*

*Please look at other measures to provide crematorium services such as building extra furnaces in the existing facilities.*

*I call on the Council to remove all reference to Firs Farm wetlands from Policy SPCL4*
