

I am writing to completely object to this plan.

We need this major supermarket. It's loss will affect the elderly, the disabled and increase car usage.

The area cannot cope with more residents.

There will be less parking for local shops.

The new residents will bring more cars.

Environmental

- This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees)
- In 1986, the Secretary of State allowed planning permission for Sainsburys to be built with the condition that the green space was retained for community use
- The green space is especially useful for residents who live in the surrounding flats and do not have gardens
- The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield

Other issues

- This development will need to offer housing in keeping with the character of existing housing in Winchmore Hill. However, Enfield residents require larger, affordable family housing which this development will not be able to offer.
- Inappropriate choice of site given the close proximity of existing traditional historical properties.
- This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc
- There will be construction vehicle disruption and increased building work traffic on a road (Green Lanes) already congested especially at peak times
- There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area
