

I have lived / grown up in Hadley Wood for 21 years with my family. Its a beautiful, special area and I'm afraid that this proposal will destroy the precious land. It will forever ruin the historical character of Hadley Wood.

I was under the impression that Green Belt was supposed to protect our planet. However, these developments will add more damaged to the environment. An increase in traffic, pollution and overall ruin of the beautiful green lands.

This will forever destroy our beautiful Hadley Wood.

I urge you to remove this site allocation from the Local Plan.
