

I object strongly to the plan to build on the site of Sainsburys Carpark. The idea of removing a useful amenity and replacing it with housing does little to help those of us forced by your attempts to make us all use local transport, to shop easily. We also object to the underhand way in which Sainsburys have colluded to send information to the contrary in an attempt to allay the fears of such people as myself. They stated categorically that this would not be happening!
