

To whom it may concern,

I hear that there is plan's on building flat's or house's in place of the Winchmore hill Sainsbury's.

I am very disappointed in this.

How can the Enfield council tell us to recycle and put rules in place yo reduce pollution, and on the other hand, taking away necessary food shopping from people who can actually walk there. This will make me have to use my car and go further out, further polluting the area.

I can't believe how Enfield council want to line in their pockets.

You have already built the New River houses recently, we don't need anymore buildings.

I will not be supporting these buildings.
