

Dear Sir/Madam

I note the from the Enfield Local Plan there is a proposal to redevelop the Sainsburys supermarket on Green Lanes Winchmore Hill, in order to build 299 new homes.

By redevelop do you mean demolish the supermarket ? If this is the case I strongly object. You spent millions on a cycle lane no one uses and now want to take away an essential facility which everyone in the community uses ? It makes no sense . You would force us all to drive further to find the nearest alternative store - not good for the environment. During the pandemic we all realized just how essential our local supermarkets are. This pandemic is not over - and it won't be the last we have to face.

Leave Sainsburys alone !
