

Attention: Enfield Council  
Response to Draft Local Plan  
Objection to any development of crematorium in Firs Farm Wetlands

I, Angela Goodings of 46 Woodberry Avenue, N21 3LD, object to any development of crematorium in Firs Farm Wetlands.

The wetlands is a community asset used by a huge diverse mix of residents within Enfield, many of which will probably be unaware of development plans. I object to the development of wetlands because of the health, wellbeing and recreational provision it provides as well as natural habitats and biodiversity.

I remember the wetlands as waste land, quite scary place when I was growing up – the transformation has been fantastic and thanks to the council and volunteer groups who have created such a valuable green space.

Do not remove, reduce or get rid of any of it.
