

Dear Councillors

I have been a local resident for over 36 years and this is the first time I have felt the need to write to the Council. I am dismayed by the Draft Local Plan which, if followed through, seems destined to harm the future of Enfield as a borough in which all its residents can benefit from the proximity of green spaces. I am also concerned that the Council seems unaware of the complexities of climate change and has drafted a plan that will contribute to, rather than, reduce the damaging effects of carbon dioxide on the atmosphere.

I recommend that all Councillors read the attached Response to the Draft Local Plan prepared by Encaf. Its detailed but readable outlining of the counter arguments cannot be ignored.
