

Dear Sirs

I am contacting you to request that you remove all reference to Firs Farm wetlands from Policy SP CL4.

I object to draft policy DM BG16 in the Draft Enfield Local Plan, which allocates Firs Farm Wetlands (Site ID SA59) as a site for burial and/or cremation use.

The site is very close to residential homes and does not seem a suitable position for cremation use.

I oppose this policy because Firs Farm wetlands is an important community resource, essential to the health and well-being of local people. The site has been developed in recent years and has been used by many more local people since then. It is hugely popular and accessible by people of all ages and abilities who use it for leisure and exercise.

The site is much enjoyed by my 3-year old granddaughter who enjoys the wildlife, the nature and the areas decorated for children, where she can find exciting things that educate her and stimulate her imagination. It is also enjoyed by my 93-year old father, being an attractive green area where he can go for his daily exercise within a few minutes' walking distance, with safe, flat surfaces to walk on, and without having to travel to another park or open green space in a car.
