

I think there are lots of housing already done locally, don't need anymore houses. Will be congested , car will increase. Local & older people will suffer. They won't have chance to go out & shopping, also will pressure on NHS. Instead need more Hospital, somewhere old people can meet & Schools Educations places. Don't make more congestion, health will deteriorate for many more people. Please don't make houses , industrial places. Leave it as it is. Thanks
