

I would like to record my **VERY STRONG** objection to the Council's plans to redevelop the Sainsburys supermarket site in Green Lanes, which if taken forward would have a very negative impact on the local community. My concerns include:

1. The Negative Impact on Local Facilities.

- The loss of a major supermarket in the area will force people to have to drive further and will pose a further strain on local traffic congestion. This would especially affect elderly and disabled residents and increase car usage on local roads.
- No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists.
- With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to further local closures and depress economic activity in the local community.

2. The Negative Impact on Local Residents

- The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school. This will have a negative impact on the Council's obligations to achieve a carbon neutral borough.

3. Additional Negative Environmental Impacts

- This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees).
- In 1986, the Secretary of State allowed planning permission for Sainsburys to be built with the condition that the green space was retained for community use.
- The green space is especially useful for residents who live in the surrounding flats and do not have gardens.
- The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield

4. Other issues

- This development will need to offer housing in keeping with the character of existing

housing in Winchmore Hill. However, Enfield residents require larger, affordable family housing which this development will not be able to offer.

- Inappropriate choice of site given the close proximity of existing traditional historical properties.
- This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc.
- There will be construction vehicle disruption and increased building work traffic on a road (Green Lanes) already congested especially at peak times.
- There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area.

On the basis of the negative impacts identified above and the considerable ill-feeling that this proposal has created within the local community, I trust that common sense will prevail and that the Council will abandon this proposal before any further council funds are wasted.
