

I wish to protest in the strongest possible terms about the proposed plans for large numbers of extra dwellings within the borough and the proposed destruction of the Winchmore Wetlands.

These proposals will cause immense damage to our beloved local environment.

Green spaces are known to be necessary for our mental and physical well-being and it is essential that they be retained for use by future generations.

We cannot allow the legacy of this Council to be a severely overcrowded place where children have nowhere to play and no contact with the natural world.
