

I am writing to object SA32, Sainsbury's Green Lanes N21 3RS. I oppose this policy because:

- it'll cause even more congestion and traffic jams to the area which is already suffering increased levels of traffic and delays
- it'll increase pollution in the area which is already suffering from increased levels of fumes and gasses
- this store serves the local community well as it's in walking distance to many houses and residential areas and if knocked down will push customers to other stores which would require car use, again increasing the congestion
