

Objections to draft Local Plan SA32 Sainsburys Green Lanes p315, p359 of the Enfield Local Plan.

This email relates to the proposed development of Sainsbury's site at Winchmore Hill. I have lived in Enfield for most of my life and now reside at 50 Orpington Road N213PG. I am proud and grateful to live in this area but am deeply perturbed by the plans proposed by yourselves, in particular to the proposals for the change of use of this site. I wish to register the following objections

If implemented the plan will result in reducing the existing open space around the store and its car park. More dwellings means more cars and lorries with a corresponding rise in pollution levels.

More people means an increase in already stretched local healthcare services and education.

Sainsbury's park is utilised by the local community especially the elderly and the young who live across the road in local flats with no gardens.

The apartments will have a negative impact on the look and feel of the surrounding area. There are already plans for residential developments in the vicinity, like the Police Station and Travis Perkins site. More dwellings on the Sainsbury's site will put yet more strain on local medical, transport and education provision.

If Sainsbury's is lost there is no other major supermarkets in the area. This would severely affect elderly and disabled residents of nearby dwellings.

As a suggestion, couldn't the land at Morrisons car park be utilized without affecting nearby housing,?

It is my understanding that there is already at covenant that Sainsbury's site should not be considered for development and this was factored into the original Sainsbury's agreement. A green belt space was developed and there was a ceiling height placed on this Sainsbury's structure to ensure that the building blended in with the surroundings.

I look forward to receiving your response.
