

Dear Enfield Council (Planning Department)

Re: Draft Policy DM BG16 / Site ID SA59 / Policy SP CL4

I am writing to object to the your plan for building a crematorium on the 'Firs Farm Recreation Ground'. My reasons for objecting include the following:

1. Firms Firm Wetland has been an essential part of our community in terms of health and sport, and a leisure location, for people of all ages to enjoy.
2. Building a crematorium will detract from and diminish the quality of the nature conservation which has been a valuable resource for the residents.
3. A large sum of money was spent to develop the Firms Farm Recreation Ground and the Wetland to its current state. This proposed plan will be detrimental in this regard.
4. Other consideration such as pollution, traffic and water/flood management have not properly been taken into account.

I trust this plan will be scrapped in the interest of the residents and the afore-mentioned reasons.
