

To whom it may concern,

I object to the development of the Enfield green belt and the local draft plan.

It is imperative that future generations have the opportunity to experience the beautiful green space we have on our doorstep, something which makes our part of Greater London so unique.

It is also resolutely important that the local area is not over run with cars and more people without the necessary infrastructure necessary for them.

We already have enough developments which have been built, like the Fox Pub in N21 and the New Avenue development in N14.

I specifically object to the development of following sites:

Policy SP PL 10

Policy SP PL9

SA45

SA52

SA54

SA32

SA20 ASDA Southgate, 130 Chase Side, Southgate

SA21 Southgate Office Village 286 Chase Road.

SA22 M&S Food

SA23 Minchenden Car Park and Alan Pullinger Centre

My reasons for objecting include:

- No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists

Impact on local residents

- The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact local people and especially school children. Especially when we're all trying to walk and cycle more and use our cars less.

Environmental

- This development will lead to the destruction of habitat and woodlands – as well as trees with protection orders.

Other issues

- There will be construction vehicle disruption and increased building work traffic on all nearby roads which are already congested especially at peak times, especially Green Lanes and Cockfosters Road.
- There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area
