

Attention - Enfield council

I object to the following policies SP PL10, pages 80-87, 77-80; Policy SA45, Policy SA54, and policy SA62 all of which propose the dedesignation of green belt for housing and other purposes.

I object to development of green spaces which have negative environmental and social impacts with urban sprawl creating more issues for example car usage and carbon emissions. Development of new homes further on the outskirts need to be facilitated with improved infrastructure such as train availability where services have already been reduced. Living on the doorstep of open green spaces is a attraction to living in Enfield borough which will be destroyed by further development of the green belt.
