

I'm a resident in Winchmore Hill and I **strongly object** to the following two proposals in the plan

- Building a crematorium in Firs Farm Recreation Ground (SA59) as this is the only park within walking distance of my home and building the crematorium would impact considerable the green space in this park.
- Building 299 homes in Sainsburys Green Lanes (SA32) as this area is already lacking public services (i.e. Highfield Primary School is very oversubscribed and is already very hard to get an appointment in the local GP practice). It doesn't make sense to increase population density in this area without further primary schools and GP practices.
