Sainsburys proposed redevelopment in Green Lanes Winchmore hill n21 3rs.

I am very concerned about this development for many reasons.

This could be disastrous for the area.

This Sainsburys is incredibly necessary, since it is the only major supermarket, serving a huge area. Shoppers will now have to travel far further afield, causing further traffic, congestion and pollution. Residents without cars will be particularly distressed. Having such a large development on this site will create a huge increase in traffic and pollution, and destruction of trees and therefore wild life, which is so important to the local community.

The local community facilities, such as schools and doctor surgeries etc. will be under immense strain.

To be honest, the carnage doesn't bare thinking about. It is going to be horrendous.

One can only imagine how devastating the actual construction of this site is going to be. Havoc on a major scale.

The Ford's grove car park development is going to create further chaos for the same vicinity with an increased lack of parking.

It's difficult to know what is going on with Enfield council to subject the inhabitants of this district.

Do the quality of these people's lives, matter so little?

I sincerely hope we have a say in this proposal, and I would hope you inform the local residents, how this development will impact their lives.

Please reconsider this project, it is truly devastating.

I look forward to acknowledgement of my objections
