

I strongly object to the plan to develop the Sainsbury supermarket for the following reasons.

1. It will impact adversely on **Local Facilities** . The loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads . No supporting community infrastructure is planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists • With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to potential closures Impact on local residents • The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school.

2. **Environmental** • This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees) • In 1986, the Secretary of State allowed planning permission for Sainsburys to be built with the condition that the green space was retained for community use • The green space is especially useful for residents who live in the surrounding flats and do not have gardens • The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield Other issues • This development will need to offer housing in keeping with the character of existing housing in Winchmore Hill. However, Enfield residents require larger, affordable family housing which this development will not be able to offer. • Inappropriate choice of site given the close proximity of existing traditional historical properties. • This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc • There will be construction vehicle disruption and increased building work traffic on a road (Green Lanes) already congested especially at peak times • There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area.

Please Enfield Council don't reduce the quality of local life and environment to the point that Enfield becomes a place where people find it difficult and unpleasant to live. The point is to encourage a sense of community and a desire and facility to shop and socialise locally; and to improve the environment for residents, wildlife and the planet, not to overcrowd, trash it or pollute it further.
