

Dear Sir/Madam

I am not in favour of building houses on the green belt.

The green belt is suppose to be protected.

Closing so many supermarkets doesn't seem to make sense.

You should be prioritising saving jobs especially as so many have been lost due to the pandemic. You might be receiving a windfall from the developers for each job lost but it will cost a lot more in universal credit/benefits for those who are made redundant.

Plus where are people suppose to get there food shopping or do you expect everyone to order supplies online.

If the proposal of building on station car parks is suppose to help residents then where are they to park if using the underground. Are you going to be running buses 24 x 7 so residents can get home from the stations. The night buses don't run where everyone lives or are we expected to walk late at night/early morning. Not exactly safe if you a female
