Dear Sir,

Local Plan – Site SA45 – Land between Camlet Way and Crescent West, Hadley Wood

I live with my parents, Mr & Mrs. Shah. Hadley Wood has a special appeal to me because of its wide, open green spaces and the Green Belt area. Building upon this site or adjacent to it, would destroy the beauty and the character of the whole area. The planned proposal would also have an impact on the air quality and the biodiversity of the whole area. In fact, the whole proposal is in direct contrast to all climate change and green policies. As a young person, I strongly feel that the Green Belt area must be conserved and looked after for my generation and future generations to come.

From what I have seen of Hadley Wood, the current transport and public amenities would not support extra homes in the area.

The proposed new housing would also have a detrimental effect on the surrounding Conservation Areas and Grade 11 listed buildings, in terms of the setting, character and appearance of these heritage buildings.

I implore you to please leave the green belt alone and preserve it for future generations.

Yours faithfully,
