

Objections to the Crews Hill Housing development

There is no affordable housing in Crews hill.

There is only one shop, which most would need a car to get too, and off road space to park in. Not all of the houses have parking space which means parking in the road anywhere you can.

This would not be affordable housing except for the really well off. Parking in the street, not necessarily near your home.

The walking path is so narrow you can barely walk on it is a dangerous place to push a pram or walk with children.

There are a lot of very narrow parts where you may have to walk in the road.

The road is too narrow to accommodate any more traffic without cutting into the green belt. There is no school, leaving parents no option but to take their children to school each day in another area. BY CAR

Yours sincerely
