

2ND SEPT. '21

Here are our objections to the plan to build on the site of Vicarge Farm.

- ① Pollution from extra traffic and level of noise
- ② The amount of homes to be built (5,000). Once permission has been granted what's to stop them building more homes on the site.
- ③ Extra people will put more strain on G.P. surgeries, dentists, schools and hospitals, which are already over subscribed for the area.
- ④ There are already too many developers building flats in our local area.
- ⑤ Lets not forget our wildlife.
- ⑥ Brownfield sites should be used as the infrastructure is already in place. Warehouses can be used as well as derelict houses can be renovated to accommodate homeless people.
