To whom it may Concern

When I moved to Enfield 50 years ago from Camden I thought I'd moved to a beautiful little unspoilt town - which it was then, where my husband and I brought up our 3 sons. I understand that we have to move forward and progress, but surely not the way this Council is trying to achieve progress!! All their proposals are absolutely

propagandous.

All the points in your letter are correct and true - if these proposals go ahead we in Enfield will be living in a very different place without doubt and not for the better. 3,500 houses in Cross Hill alone - what are they thinking, where are the schools, doctors, hospitals for all these people - the roads around Cross Hill are so narrow our local little bus can hardly manoeuvre round the roads - but what a God send at long last we have a decent bus service.

Everybody I have spoken to feel the same way regardless of whether they live in Cross Hill or other parts of Enfield. I hope many

People who are residence in Enfield will give their support in keeping Green Belt Green Belt. How can the Council just remove certain parts of Green Belt to suit them whenever they feel like it, what gives them the right to do it or are they getting backhanders from developers, its absolutely unbelievable that laws can be broken willy nilly to suit.

I trust that this letter be to one of many in supporting you to stop what is happening to Cross Hill and Enfield as a whole.

I honestly do not think that people in Government/Councils, who sit behind their desks making all these decisions have any idea what these terrible changes will entail if all these ludicrous proposals go ahead. They have got to think AGAIN!

Yours truly _____

A Very Worried Resident
