

Dear Sir / Madam,

7.9.24.

I realize that more houses/flats are needed but I see objection on the following grounds:-

1. We need green spaces for good health & mental well being! The pandemic has proved this point.
2. There is a lot of traffic going thro' C/Hill & the roads are narrow. This will add more congestion & air pollution.
3. Local amenities are restricted - there are no shops for groceries or even a paper shop. Currently we go to Garbar Hill or Enfield.
4. There is only 1 primary school in C/H & children will have to travel further.

5. It's hard enough to get a GP app<sup>1496</sup>  
as with added housing the GP load  
will increase.

Climate change is affecting this  
nation & we should think very  
very carefully before you take  
all our green spaces away. We need  
to have places to walk & take in  
fresh air.

Yours sincerely,
