

28TH 8.21ENFIELD LABOUR COUNCIL.

I am full of anger, it's dispicable the plans for Enfield, 25,000 new homes. Why not foist option. 14,000? more than enough. Disgusting. These so called homes, not houses high-rise tower blocks. Been there before remember! Still plenty of brown land to build on. Work at MERIDIAN WATERS development still a lot to do there.

Build on green belt NO thats always to stay, you know that. Residents only pure and quite and country wild life in Enfield.

Open your eyes, look around you. Enfield town is a real mess. Shops fast closing (rent to high) car parking gone, more going. Side roads full of cars, and at busy times at a stand still. We the residents do not want a London.

We have only one hospital in the whole of Enfield. Not a proper hospital. They cannot put a plaster on a broken ~~bone~~ bone, max stuck up a cut, you get sent to Barnet.

NO to all your plan

NO to building on green belt

NO to our parties from Supermarkets

NO to high-rise tower blocks.

Do you fancy living in a high-rise tower block?

I bet its NO, nor do I. I was very happy here, not any more. Not a good place to make a home. No work in Brimsdown. Nothing any more a very sad place. ~~Disappointing~~ ^{disappointing} after so many PTO

good years.

No to labour council, the plan is
do better
Think again, you will have to
